NO MORE MASSACRES AT SEA

LET'S DEFEND LIFE LET'S DEFEND HUMANITY

Still a shipwreck, still broken human lives as they try to reach Europe to save themselves.

It happened off the coast of Tunisia this time for 43 people who died, but unfortunately there are thousands of victims of state borders and their criminal laws.

The Draghi government, in continuity with previous administrations, confirms its criminal agreements with Libya, seizes NGO ships and continues refoulements: it is responsible for this terrible tragedy.

States despise human life: they are letting children, women and men flee from hunger, wars and terror to die at sea.

We cannot remain silent, we cannot surrender to the tragedy even if it is so great.

We need to unite, to make our voices heard out of an elementary sense of humanity and justice.

In the face of this terrible tragedy, who we are is at stake: those who remain silent and indifferent risk to become accomplices of the States, those who have humanity at heart choose to be in solidarity, to take sides and to react.

We make a warm appeal to all solidary people, to immigrant brothers and sisters, to communities, to all anti-racist realities to mobilize to defend life and hospitality and to welcome our sisters and brothers.
