## **Solidarity with the Palestinian people against the aggression of the state of Israel**

We condemn yet another ferocious attack by the Israeli Zionist state against the Palestinian people which has so far resulted in over 100 deaths.

This umpteenth violence broke out after thousands of people peacefully protested against the police and against settlers who evicted Palestinians living in East Jerusalem from their homes. Again, the Israeli police has prevented Muslim believers from accessing the Esplanade of Mosques, while the expansionist and occupation policy that the Palestinian population has always opposed with great courage continues, as has been going on for decades.

A veritable genocide is taking place against the Palestinian people, who have been fighting for decades to see the right to their own self-determination recognized. In fact, for over 70 years, since the day of the Nakba (catastrophe), the anniversary of which falls these very days, there have been millions of Palestinian refugees in the world, forced to leave their homes, and who are still forbidden from returning.

We know that the politico-military responses do not help the rightful reasons of the Palestinians, but aggravate the picture, as demonstrated by the action of Hamas and its indiscriminate rocket firing at the civilian population in Israel. The same goes for the Palestinian National Authority, against which there have been demonstrations in recent days by the Palestinian population.

We issue an appeal: we call on solidary people, on the immigrant brothers and sisters with whom we are fighting for "permesso di soggiorno" (permit of stay) and the right to "accoglienza" (welcome and hospitality"), to unite in solidarity against the military aggression of Israel, therefore denouncing the complicity of all the states and governments that support this destruction. The same states and governments, let us not forget, that let our brothers and sisters die at sea, while they are fleeing from wars and miseries to seek hospitality and salvation.

- **Stop the bombing and the war of Israel**
- **Right to self-determination of the Palestinian people and right to return for all refugees**
